Recap Show Not Show during Design Biennale Rotterdam. Special thanks to the Groot Handelsgebouw and Fundamental!

SHOW NOT SHOW invites you into the world of makers—creators who craft exceptional objects that speak for themselves. This presentation features a curated selection of finished works, highlighting the essence of design through material, form and function.

What unites the six designers is their shared approach to their chosen material, which forms the foundational layer of their design process. With distinct signatures and established positions in the field, they bring together a collection that reflects a deep understanding of craftsmanship and materiality.

Following a well-received **national debut** at **Dutch Design Week** 2024 and a successful second edition at the **Design Biennale Rotterdam** in 2025, **SHOW NOT SHOW** returns for its third edition and its **international debut**!

Check out a recap of the second exhibition above and explore our catalog !

Collectible

The international fair dedicated to 21st-Century collectible design

Experimental in its approach, COLLECTIBLE is the only global platform for the showcase and discovery of the best in contemporary collectible design. Originating in Brussels, it successfully expanded to the United States with a celebrated first New York edition in September 2024. Now dually and equally anchored in two continents, COLLECTIBLE has established itself as a transatlantic highlight where visitors can witness design history in the making.

Continuing its steadfast commitment to pushing the boundaries of creativity, the fair showcases established and emerging galleries, design studios and independent editors in an integrated space and spectacular scenography. While collaborating with an array of leading curators, design institutions and foundations to deliver groundbreaking commissions and curated projects, the fair showcases well-researched objects reflecting the latest movements. It is widely acclaimed for its strong focus on premieres, forward-thinking unique pieces, and limited editions.

Established in 2018 by art and design professionals Clélie Debehault and Liv Vasberg, COLLECTIBLE is the only fair in the world to solely focus on 21st-century design. Breaking away from the traditional fair format, COLLECTIBLE seeks to reinterpret the design fair model by offering visitors the opportunity to immerse themselves in an open and integrated space where galleries, design studios, institutions and foundations come together. Founded in Brussels, the fair will launch its second New York edition in September 2025.
